## Southern District Kaleidoscope

Today, I am going to tell you something about the Southern District.

In the Southern District, there are many interesting places, for example, Stanley Market and Ocean Park. Stanley Market is a popular tourist attraction because there are many shops and restaurants. People can buy some interesting things and eat different yummy foods. There are many nice beaches in Stanley. During the holidays, we can always go to Stanley. We can swim, play beach volleyball and sunbathe. At Mid-Autumn Festival, we can go there to enjoy the beautiful full moon, as well.

Ocean Park is an interesting place in Hong Kong. We can ride on roller coasters and watch the dolphin show. The show is funny and amazing. Many people like going to Ocean Park because it makes them happy. I like to go to Ocean Park, too.

I like the Southern District very much because the Southern District is my home and there are many beautiful views to enjoy.
